- 600807 12" Blade (set of two)
- 600808 Carbon Brush Replacement Set

Maimin Mini-Shear

- Functions like a pair of shears. Its cutting blade revolves against a stationary carbide blade for smooth, uniform scissor action. The most powerful and fastest electric shear on the market, it won't fuse or pull-in fabrics. The grip style micro-switch in the handle is most convenient, and permits one-hand operation. The recessed sharpener doesn't obstruct view of line being cut, and won't overheat in constant use. The blade is simple to replace.
- Double-insulated for protection against shock.
- Cuts up to 5/16" high.

- 600811 Maimin Mini-Shear
- 600814 #30312 Hexagonal Replacement Blade

#1212 Foam Cutter

- Cuts fabric, vinyl, foam and other soft materials.
- Special carbonized hardened cutting edge.
- For use in a standard 1/4" or 3/8" electric drill.
- Ejector rod included with each cutter.

- 607063 #1212 Foam Cutter - 1/2" diameter
- 607064 #1212 Foam Cutter - 3/4" diameter
